REF: Thanks for your support

I take this opportunity to thank God for the favour of life that He has granted to us all. I sincerely appreciate God for His grace for each and every person. Truly I have no word to express my overwhelming joy for the great support and motivation I have got from you.

My first term in school was great. The school is nice and the teachers very supportive. Surely, if it were not for you, my life would have been very different. Having education here in Kenya is everything every child dream of. I would like to be an Engineer in future and I am going to work hard to achieve that. Though because of competition, my grades were not as I had expected, I still hope to work even harder and improve in every subject. I thank you all for your support and I wish all the best.

Yours faithful

Peter Wainanaina.
